## EDUCATION

### B.Tech (Computer Science & Engineering)

R V Institute of Technology (2020-2024)

### Intermediate

HST Inter College (2019-2020)

### High School

HST Inter College (2017-2018)

## PROJECTS

### MOVIE-MEET WEBSITE

#### TECHNOLOGY: MERN Stack

Create a movie website using the MERN stack by developing a backend with Node.js, Express, and MongoDB for managing movie data through API endpoints. Set up a React.js frontend with components to display movie details, ratings, and user interactions. I created a user-friendly interface with React for a seamless browsing experience.

### PORTFOLIO WEBSITE

#### TECHNOLOGY: MERN Stack

Designed and developed a dynamic portfolio website. I created a user-friendly interface with React for a seamless browsing experience and integrated a MongoDB database to store and manage project data.

### INSTAGRAM CLONE

#### TECHNOLOGY: HTML, CSS, JAVASCRIPT

This endeavor showcased my proficiency in front-end web development. I designed the user interface, integrated responsive design principles, and implemented features akin to the original Instagram, including image uploads, likes and comments.

## SKILLS

- **Languages:** JavaScript, HTML5, CSS3, Python
- **Frontend:** HTML, CSS
- **Database:** MySQL
- **Version Control:** Git, GitHub
- **Tools:** VS Code, npm, Excel, Jupyter Notebook
- **Other:** Responsive Web Design

## CERTIFICATIONS

- HTML, CSS and JavaScript by Xtrude Engineers.
- Certified Professional in Python.
- Certified in MERN stack by Xtrude Engineers.

## STRENGTHS

- Quick Learner
- Hard Worker
- Problem-Solving Skills
- Effective Communicator
